Brussels, July 2010. The European Water Partnership is pleased to invite World Water Week visitors to the side event **“Water Futures of Europe and Neighbouring Regions”** as well as the seminars **“Rewarding Responsible Water Use, Managing Risk”** and **“Water Quality Assessment: Indicators and Optimal Decisions in IWRM”**, to be held in Stockholm, on the 6th and 7th September 2010.

“Water Futures of Europe and Neighbouring Regions”

Side Event

Date: 2010-09-06

Time: 12:15-13:15

This event aims at summarising possible futures of the availability of good quality water in Europe and neighbouring regions under changes of several drivers (climate demography, agriculture, tourism, industry, technology). Presentations and discussions will also explore policy implications. Event convenors include the European Water Partnership (EWP), the Finish Environment Institute (SYKE), The SCENES Project (Water Scenarios for Europe and Neighbouring Countries), the European Environment Agency (EEA) and the Finnish Water Forum (FWF).

“Rewarding Responsible Water Use, Managing Risk”

Seminar

Date: 2010-09-06

Time: 15:30-18:45

The Alliance for Water Stewardship is creating a voluntary, market-based program to reward responsible water users worldwide. In 2010 the Alliance launched its global, multi-stakeholder “Water Roundtable”. The Alliance invites World Water Week participants to contribute their scientific and policy insight to further development of this transformative concept in water management.

“Water Quality Assessment: Indicators & Optimal Decisions in IWRM”

Seminar

Date: 2010-09-07

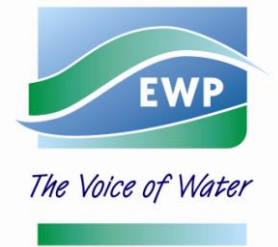

Time: 9:00-12:30

Media contact:

Lisa Struebbe

+32 (0) 273 50 681

The seminar addresses the assessment of water quantity and water quality supporting the implementation of optimal decisions on integrated water resource management. The objectives are i) to discuss the usefulness of various indicators and tools to secure sufficient water knowledge; ii) to discuss leading-edge monitoring technologies and adaptive assessment solutions. This event is convened by the European Water Partnership, the Helmholtz Centre for Environmental Research (UFZ), IHP/HWRP Secretariat, the Federal Institute of Hydrology, Germany, DHI Water and Environment, the Global Water Partnership (GWP) Southern Africa and UNEP-DHI Centre for Water and Environment.

About the World Water Week in Stockholm

The World Water Week in Stockholm is the annual meeting place for the planet's most urgent water-related issues. Organised by Stockholm International Water Institute (SIWI), it brings together experts, practitioners, decision makers and leaders from around the globe to exchange ideas, foster new thinking and develop solutions.
